Hur ser man kodändringar för review?

→ kolla commits på github

The screenshot shows the GitHub interface for a repository. Red arrows highlight the following elements:

- Code tab:** An arrow points to the 'Code' tab in the top navigation bar.
- Branch selector:** An arrow points to the 'master' branch dropdown menu, with the text 'välj branch' (select branch) next to it.
- Commit history:** An arrow points to the commit history section, which shows a commit by 'jensgost' with the message 'Lagt till punkt efter mening för att testa branching-strategi' and '25 commits'.
- Commit details:** An arrow points to the commit details section, which shows the commit message 'Lagt till punkt efter mening för att testa branching-strategi' and the author 'jensgost committed 21 hours ago'.
- Diff view:** An arrow points to the diff view, which shows the changes in the file. The changes are highlighted in green and red, indicating additions and deletions.

The diff view shows the following changes:

```
